

Ford

TRANSIT CUSTOM NUGGET

FORD AND WESTFALIA. TOGETHER WE MAKE AN UNSTOPPABLE TEAM

Wherever you travel, every journey begins with a dream. Whether it's to discover new places, revisit favourite destinations or to simply go where the road takes you, there's no better way to travel than in the new Ford Transit Custom Nugget. Designed and built by Ford and Westfalia, one of Europe's leading motorhome converters, the Ford Transit Custom Nugget combines superb driving dynamics with outstanding levels of comfort, innovation and functionality. With high quality materials, class-leading technical features and reassuring Europe-wide service, every moment aboard becomes a memory to look back on.

Transit Custom Nugget Tilt Roof shown with 16" 5x2-spoke Sparkle Silver alloy wheels (option), in Orange Glow metallic body colour (option).

Note Some images are of pre-production models and the design/equipment of the final version may differ from that shown. For the latest information, please speak to your Ford Dealer.

Transit Custom Nugget Tilt Roof

For the adventurer in you.

The exceptional new Ford Transit Custom Nugget Tilt Roof campervan sets the benchmark for medium sized motorhomes. Built on the latest version of the Transit Custom, it delivers the range's multi-award winning attributes in an extremely versatile package.

Compact, practical and manoeuvrable, the Transit Custom Nugget Tilt Roof makes everyday trips around town a breeze. While the clever use of interior space offers unlimited possibilities when it comes to holiday adventures. And, when you finally arrive at your destination, the discreet pop-up roof provides additional headroom and ventilation, plus ample space for the generously proportioned roof bed.

Transit Custom Nugget Tilt Roof shown with 16" 5x2-spoke Sparkle silver alloy wheels (option), in Orange Glow metallic body colour (option).

Note Some images are of pre-production models and the design/equipment of the final version may differ from that shown. For the latest information, please speak to your Ford Dealer.

Compact dimensions, great possibilities

Whether it's the comfortable seating for up to five people, the use of high-quality materials or the clever utilisation of space, you'll always feel right at home in the Transit Custom Nugget. New interior designs and excellent layout solutions make it the ideal choice for quick getaways or longer holidays alike.

Lower sleeping area

Bench seat converts into a sleeping area for two adults featuring a double bed.

Rear kitchen

A fully-equipped rear kitchen provides catering and storage facilities for extended periods away from home. With a dual burner gas hob, sink with mixer tap and plenty of usable work space, you'll find all the room you need to prepare a meal to enjoy.

Right: Transit Custom Nugget Tilt Roof.

Note Some images are of pre-production models and the design/equipment of the final version may differ from that shown. For the latest information, please speak to your Ford Dealer.

High-level comfort

When the roof is raised, the high level double bed offers a new dimension in comfort.

A great night's sleep

After a long day on the road, the Transit Custom Nugget effortlessly transforms into a comfortable refuge for the evening. The tilt roof can be raised in seconds, thanks to its gas-assisted struts, while the front window blinds and dark tinted rear windows with curtains help to protect the interior from stray light and inquisitive eyes. Up to four people can sleep in the Transit Custom Nugget – two on the roof bed and two on the easy-to-convert rear bench seat.

Convertible rear bench seat

Up to three passengers can travel securely in the MI-tested rear bench seat, complete with headrests, outer seat armrest and ISOFIX child seat attachments. At night, the seat can be converted in moments to create a comfortable double bed.

Right: Transit Custom Nugget Tilt Roof.

Note Some images are of pre-production models and the design/equipment of the final version may differ from that shown. For the latest information, please speak to your Ford Dealer.

Meet your phone's new best friend

Ford SYNC 3

Ford SYNC 3 integrates seamlessly with your smartphone, letting you control everything from phone calls and text messaging to music and satellite navigation – all via the 8" touchscreen or through remarkably simple voice commands. Map updates help to keep you on track and on time, and are complimentary for a limited period following vehicle registration. (Option with Navigation)

SYNC 3 features

- Manage your phone, music, apps and navigation with simple voice commands
- Hear your text messages read aloud for you
- Emergency Assistance[†] helps occupants place an emergency call to provide emergency services with the vehicle location in their respective language
- Control SYNC-compatible apps with AppLink, while Apple CarPlay and Android Auto let you navigate your smartphone through the SYNC 3 home screen, as if it were your handset
- Colour touchscreen supports multi-touch 'swipe' and 'pinch-to-zoom' gestures

Please note: Full SYNC 3 smartphone integration is only available with iPhone 5/Android 5.0 (Lollipop) or higher. Some SYNC 3 functions require a data connection, so mobile data charges will apply. To check whether Apple CarPlay and Android Auto are available in your market, please check their official websites for the latest information.
[†]Ford Emergency Assistance is an innovative SYNC feature that uses a Bluetooth[®]-paired and connected mobile phone to help vehicle occupants initiate a call to the local Communications Centre, following a vehicle crash event involving an airbag deployment or fuel pump shut off. The feature operates in more than 40 European countries and regions.

Charge on the go

To help keep your mobile devices charged while you're on the move, Transit Nugget has two USB sockets located in the rear of the handbrake housing. A handy storage pocket is designed to hold your devices while they are being charged. (Standard)

100% connected

Only Ford can deliver a fully-connected ecosystem that's built-in from the start. Ford has a comprehensive suite of connected services to help your business thrive, no matter how many vehicles you own.

FordPass app

Get the most from your connected car experience with the FordPass app. From smart remote features to detailed vehicle health reports, the FordPass app lets you access even more functions via your smartphone. For peace of mind, you can lock or unlock your vehicle wherever you are, and even defrost the windscreen and activate the heated seats and heated steering wheel (where fitted) on a cold winter's morning (models with automatic transmission only).

Health Alerts send important information, such as tyre pressure and fuel level warnings, direct to your phone.

Other FordPass app features include My Journeys, that can record your trips and deliver tailored insights on how to optimise your driving technique. Each journey is tracked and stored, allowing you to compare by distance, duration, and more. You can log your journeys under personal or business categories and export the data. The app can also provide useful feedback on how to drive more efficiently, by showing you where you've braked too suddenly, accelerated too fast, or cornered too harshly.

FordPass Connect

The FordPass Connect modem that's built into your car enables a range of features designed to make driving easier and more enjoyable**. These include Live Traffic[†] that delivers up-to-date traffic information to your SYNC Navigation system, and Local Hazard Information^{††} that can warn you of upcoming hazards before they are encountered. In the event of an accident, eCall[‡] automatically places a call with the emergency services and shares your location. While for optimum connectivity, it also provides on-board Wi-Fi*** for a maximum of ten devices.

Please note: Full SYNC 3 smartphone integration only available with iPhone 5/Android 5.0 (Lollipop) or higher. To check whether Apple CarPlay and Android Auto are available in your market, please check official Apple CarPlay and Android Auto websites for the latest information. Map updates are complimentary for a limited time following vehicle registration.

^{*}Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones.
^{**}The on-board modem will be connected at the time of vehicle delivery. You may choose to opt in/out of certain data sharing. Where available, FordPass Connect remote features are complimentary for 10 years, thereafter a subscription may be payable.
^{***}Wi-Fi hotspot (up to 4G LTE) includes a complimentary wireless data trial that begins when customers activated the trial with Vodafone and expires at the end of 3 months or when 3GB of data is used, whichever comes first. Afterwards data bundles can be purchased from Vodafone, refer to their website for details of their data packages. To take advantage of the built-in Wi-Fi hotspot capability, a 2020 Ford vehicle must come with the appropriate hardware, and a data plan is required. Data coverage and service is not available everywhere and terms of your data plan, including applicable message and data rates, may apply.
[†]Live Traffic access is complimentary for the first 12 months following the registration of a new Ford featuring SYNC 3 with navigation; thereafter a licence subscription is required.
^{††}Local Hazard Information is complimentary for the first 12 months following the purchase of a new Ford with certain driver information modules; thereafter a licence subscription is required.
[‡]Ford eCall shares vehicle location and helps the occupants initiate a call in their respective language to the local Communications Centre, following a vehicle crash event involving an airbag deployment or fuel pump shut off. The feature operates in more than 40 European countries and regions.

Alert

Driver Assistance technology that helps you to take action.

Combining information from a forward-facing camera and radar technology, new Transit Custom Nugget can help in various driving situations. From Pre-Collision Assist⁽²⁾ (option) that can alert you to a potential collision, to Lane-Keeping Alert⁽²⁾ (option) that warns you if you stray from your lane, Transit Custom Nugget is better equipped than ever to lend a helping hand.

Pre-Collision Assist⁽²⁾

Uses radar and a camera to keep a watchful eye on the road ahead. The system monitors your proximity to other vehicles and pedestrians – even in the dark, when illuminated by the vehicle's headlights – and can alert you to a potential collision. Active Braking⁽²⁾ pre-charges the braking system and can automatically apply the brakes to help mitigate the effect of any impact. (Option)

Lane-Keeping Alert^{(2)*}

Can recognise when you approach lane markings without using the indicator and alert you with vibrations through the steering wheel. (Option, and also available as part of a pack)

Traffic Sign Recognition⁽²⁾

Designed to read standard format road-speed signs and display the posted speed limit in the instrument cluster. Intelligent Speed Assist⁽²⁾ combines Traffic Sign Recognition with Adjustable Speed Limiter to automatically restrict the vehicle's speed to the limit detected⁽¹⁾. The vehicle drives normally, but will not exceed the set speed limit unless the driver overrides the system. (Option, available only when Adaptive Cruise Control and navigation are also ordered)

Driver Alert⁽²⁾

Designed to warn you if the system detects driving behaviour that indicates a drop in alertness levels. Initially, a warning icon is displayed in the instrument cluster, followed by a warning chime if driving alertness further declines. (Standard with Lane-Keeping Alert)

Safety systems

Side Wind Stabilisation⁽¹⁾

Helps the driver to stay in lane in strong, gusty conditions by using the ESC system to sense when the vehicle is being affected by crosswinds.

Traction Control⁽¹⁾

Eliminates excessive wheelspin and provides the best possible grip, performance and stability, when you need it most. The system constantly monitors and adjusts the power delivered to the vehicle's individual wheels ensuring maximum contact and grip when you're accelerating. (Standard)

Emergency Brake Assist⁽¹⁾

Designed to recognise an emergency braking situation and increase the pressure within the braking system to provide extra stopping power. (Standard)

Electronic Stability Control (ESC)⁽¹⁾

Designed to help you maintain control in extreme driving conditions. It senses when you are deviating from your chosen line and aims to keep you on track by automatically regulating braking and engine output. (Standard)

Trailer Sway Control⁽¹⁾

Designed to detect when trailer sway occurs and to help counteract it to bring the trailer under control. (Standard, but activated with optional Ford trailer tow attachment)

Hill Start Assist⁽²⁾

Designed to temporarily prevent you from rolling down a slope when you move your foot from the brake pedal to the accelerator pedal. It works in forward and reverse gears, so is ideal for towing and pulling heavy loads. (Standard)

Side curtain airbags⁽¹⁾

Designed to provide additional protection to the driver and front seat passengers. (Option)

⁽²⁾Uses sensors. ⁽¹⁾Driver Assistance feature.

Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

⁽¹⁾Speed limit may vary according to road and vehicle size. Driver is responsible for adhering to the speed limit at all times.

*Operates at speeds over 40 mph (65 km/h) on multi-lane roads with clearly visible lane markings.

⁽²⁾Uses sensors.

*Maximum towing capacity on L2 series.

⁽¹⁾Safety feature.

⁽²⁾Driver assistance feature.

Efficiency

Power without compromise

Transit Custom Nugget is powered by our latest high-performance Ford EcoBlue diesel engines. Powerful, clean and refined, they build on the industry-leading performance and technology of our award-winning Ford EcoBoost petrol engines.

Key technologies include

- Auto Start-Stop system
- Ford Smart Regenerative Charging
- Gearshift Indicator light – to aid economical driving
- Acceleration Control – unique engine calibration helps to reduce fuel consumption when the vehicle is driven unladen (option)
- Ford Battery Management System – improves battery life, fuel consumption and ensures ready-to-go reliability
- Selective Catalytic Reduction (SCR) system - uses AdBlue® to convert NO_x emissions in the exhaust gas into nitrogen and water
- Ford Easy Fuel capless refuelling system helps avoid accidentally filling up with the wrong fuel

Flexible

2.0L Ford EcoBlue 130 PS

The Ford EcoBlue 130 PS (96 kW)/385 Nm diesel engine strikes a performance balance, delivering extra power and torque without compromising emissions.

Powerful

2.0L Ford EcoBlue 170 PS

The Ford EcoBlue 170 PS (125 kW) diesel engine develops 390 Nm of torque, making it the ideal choice for moving heavy loads or if regularly towing.

Note For further fuel economy and emissions information, please refer to the specifications section.

Note Some of the features listed above are options, at extra cost and may not be available on all models. Please refer to the specification tables, or speak to your Ford Commercial Vehicle Dealer for further information.

*NEDC test figures.

Cost of ownership

Saving you money for as long as you own your motorhome.

Quality and durability are built into your new Transit Custom Nugget at every step. After many years of service it will feel as good – and drive as beautifully – as it did the day you first took delivery.

- Auto Start-Stop helps to maximise your fuel efficiency (standard)
- Acceleration Control is a unique engine calibration designed to limit acceleration when the vehicle is lightly laden, helping to reduce fuel consumption (option)
- Engine oil monitor warning light will illuminate if the engine oil condition deteriorates between services
- High-mounted light units are located above the bumper line, to help keep them out of harm's way
- Brake pad wear sensors warn when the pads are due for renewal
- Fuel filter sensor warns of water ingress or a blockage of the fuel system
- Side repeater lights are positioned on the inner edge of the door mirror to minimise accidental damage. When folded, the mirrors reduce vehicle width by around 190 mm
- 12-year perforation warranty provides reassurance against perforation of the bodywork from the inside of the panel
- Multi-piece rear bumper design helps to keep repair costs low

Never misfuel again

Ford Easy Fuel capless refuelling system's unique design helps avoid accidentally filling up with the wrong fuel. Plus, no dirty fuel caps to touch. (Standard)

Features to make your life easier

Adaptive Cruise Control⁽⁰²⁾

Set your desired speed and Adaptive Cruise Control maintains a pre-set distance from the vehicle in front. If the sensors detect traffic slowing ahead, your vehicle automatically slows down. When traffic has cleared, your vehicle accelerates back to the pre-selected speed*. (Option)

⁽⁰⁾Uses sensors. ⁽²⁾Driver Assistance feature.

Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

*If stop is longer than three seconds, driver must intervene and press "RES" button or accelerator pedal to resume system operation.

Xenon headlights with static bending lights

Transit Custom Nugget's xenon headlights offer superior light quality over halogen bulbs, while using less energy. Static bending lights, mounted within each headlight, illuminate corners during turns, at speeds up to 37 mph (60 km/h). Whenever outside light levels dictate, automatic headlights switch on to help keep the road ahead well lit. (Option)

SelectShift automatic transmission

Six-speed automatic transmission delivers a smooth, relaxing driving experience, especially in busy stop-start traffic. Change gear manually if you prefer, using the facia-mounted gearshift, or lockout gears in more challenging driving conditions, e.g. on slippery surfaces or steep gradients. (Option)

Parking distance sensors

Front and rear parking distance sensors provide an audible warning to help you judge parking distances. (Standard)

Clever by design

Torque Vectoring Control

Torque Vectoring Control reacts to the road surface 100 times per second (that's 33 times faster than the blink of an eye). Using this information, it balances the amount of power delivered to each of the driven wheels. This maximises grip and sharpens handling, helping you around corners and over undulations in the road. (Standard)

Rear-view camera with Trailer Hitch Assist

Select reverse and the view to the rear of the vehicle is displayed in the Multi-Functional Display screen. Marker lines overlaid on the camera image indicate where the vehicle is heading. (Option)

Note Cameras only operate at speeds under 6 mph.

Convenient stowage

Transit Custom Nugget's driver-focused cockpit has plenty of useful stowage spaces for bottles, phones and paperwork.

Live Traffic*

Provides you with real-time traffic information such as traffic speed, accidents and road closures, as well as alternative route guidance and mapping to help you avoid problem areas. Available through FordPass via SYNC 3 with navigation (option).

*Live Traffic access is free for the first 2 years following the purchase registration of a new Ford featuring SYNC 3 with navigation; thereafter there is an annual licence fee.

Blind Spot Information System⁰²⁾

As another vehicle – a car, van or lorry – enters your blind spot whilst travelling, the system is designed to alert you with a warning light clearly displayed in the corresponding door mirror.

⁰²⁾Uses sensors. ²⁾Driver Assistance feature.

Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

Quickclear heated windscreen

Clears ice or demists the windscreen quickly, even on frosty mornings, for year-round comfort and visibility. (Standard)

Cross Traffic Alert⁰²⁾

Cross Traffic Alert scans left and right as you reverse from a perpendicular parking space. If a moving vehicle or other hazard is detected, the system will alert you with visual and audible warnings. Part of the Blind Spot Information System (option).

⁰²⁾Uses sensors. ²⁾Driver Assistance feature.

Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

Lane-Keeping Alert⁰²⁾*

Can recognise when you approach lane markings without using the indicator and alert you with vibrations through the steering wheel. (Option, and available as part of a pack)

⁰²⁾Uses sensors. ²⁾Driver assistance feature.

Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

*Operates at speeds over 40 mph (65 km/h) on multi-lane roads with clearly visible lane markings.

The Transit Custom Nugget owes its durable exterior to a thorough multi-stage painting process. From the wax-injected steel body sections to the hard-wearing top coat, new materials and application processes ensure it will retain its good looks for many years to come.

12-year perforation warranty
 The Ford Transit Custom Nugget is covered by the Ford Corrosion Protection Warranty for 12 years from the date of first registration. Subject to terms and conditions.
Note The images used are to illustrate body colours only and may not reflect the vehicle described. Colours and trims reproduced within this brochure may vary from the actual colours, due to the limitations of the printing processes used.
 *Metallic body colours are options, at extra cost.

Get the most from your new Ford

We want to help you get the most from your new Ford. And to do that, you need to know how much it is designed to safely carry, both in terms of payload and passengers. Your Transit Centre can provide professional advice on important specification aspects, and help you to find the right vehicle for your budget and leisure needs.

Choosing a new vehicle is an important decision with lots of factors to be considered. While some aspects, like selecting the most appropriate derivative are relatively simple, others, such as calculating payload can be more complex.

Payload capacity

To calculate payload, you need to know two things: the vehicle's gross vehicle mass (GVM) and its kerb mass.

GVM is the maximum permissible weight of the vehicle when loaded and ready to go – that includes the weight of the vehicle itself, ancillaries, driver and passengers (assuming the industry standard weight of 75 kg/person), fluids, fuel tank 90% full (1 litre of diesel = approximately 0.85 kg), optional and aftermarket equipment, and luggage.

Kerb mass is the weight of a standard-specification vehicle, including fluids and fuel tank 90% full, but without the driver, passengers or luggage.

Payload is the difference between the two.

Gross vehicle mass minus **kerb mass** = **payload**

So to help you choose the right vehicle for your needs, here are some more detailed explanations about the factors that can influence a vehicle's payload. These include, but are not limited to:

Driver and passengers

We calculate the weight of the driver and passengers based on the industry-standard weight of 75 kg/person. Remember that the driver and passengers are not included in the kerb mass figure, so when a driver or passenger boards the vehicle, its payload will be reduced accordingly.

Factory-fitted options

Most factory-fitted options will affect a vehicle's payload. For example, air conditioning can add approximately 18 kg to a vehicle's weight, and therefore reduce its payload accordingly.

Your Transit Centre will be able to tell you what features can increase or decrease your vehicle's kerb mass and by how much.

Series

All kerb masses quoted in this brochure are for standard-specification models, unless otherwise stated. Higher specification vehicles will generally weigh more than a standard model due to the increased level of features and equipment.

Manufacturing tolerances

Variations in manufacturing and production processes mean that no two vehicles are likely to weigh exactly the same.

Accessories and aftermarket conversions

It is important to think carefully about what you add to your vehicle after you take delivery. Any accessories fitted or aftermarket conversions to the vehicle may adversely affect its payload. Please speak to your Transit Centre for more information and advice.

If payload is critical to the way you use your vehicle, or if you plan to load it close to its maximum capacity, your Transit Centre can help. Using their specialist expertise and knowledge, they can advise you on the exact specification of vehicle required to meet your individual needs.

Configure your vehicle to suit your requirements

Ford Transit Custom Nugget is available with a wide range of standard and optional features. Your Transit Centre can help ensure that you specify the right vehicle features for your specific needs, including technical items to aid aftermarket fitment of specialist equipment or conversion.

Weights and loads (EU6.2)

	Max. gross payload (excluding driver/passengers) (kg)	Gross vehicle mass (kg)	Min. kerb mass (excluding driver/passengers) (kg)	Front axle plated mass (kg)	Rear axle plated mass (kg)
L1 Nugget – 5 seats					
320	987-1095	3200	2095-2203	1625	1640/1725
320 with automatic transmission	961-1073	3200	2167-2279	1675	1640/1725
L2 Nugget – 8-9 Seats					
340	1072-1186	3400	2214-2328	1750	2015
340 with automatic transmission	995-1113	3400	2287-2405	1750	2015

L1 = Short wheelbase, **L2** = Long wheelbase. Kerb mass is affected by many factors such as bodystyles, engines and options. It is the weight of a standard-specification base series vehicle (different series will have different kerb masses), including fluids and fuel tank 90% full, but without the driver (75 kg), crew or cargo. Payload within this guide is the difference between gross vehicle mass (GVM) and kerb mass with a further 75 kg deduction for the weight of the driver. It must be noted that actual weight will always be subject to manufacturing tolerances which may result in payload variations between this guide and actual weight. NB: It is the responsibility of the vehicle operator to ensure their vehicles are legally compliant for road use.

Dimensions (mm)

	L1 Nugget	L2 Nugget
A Overall length	4972	5339
B Overall width with mirrors	2272	2272
Overall width with folded back mirrors	2080	2080
C Overall height*	2085	2085
D Interior headroom kitchen/living area	2420/1850	2480/1850
E Interior height above roof bed	830	830
F Interior height between bed surface of seat bench and bottom side bed roof	930	930
G Bed length	2000	2000
H Bed width	1380	1380
I Seat bench (converted into a bed) length	1910	1910
J Seat bench (converted into a bed) width	1300	1300
Turning circle (m)		
16" wheels, kerb to kerb/wall to wall	11.6/12.2	12.8/13.4

L1 = Short wheelbase, **L2** = Long wheelbase. *roof down, all dimensions (shown in mm) are subject to manufacturing tolerances and refer to minimum specification models and do not include additional equipment. These illustrations are for guidance only.

2.0 TDCi Ford EcoBlue 185 PS (136 kW) 6-speed automatic	<div>●</div>	<div>●</div>

Note: ● = Available, – = Not available. **L1** = Short wheelbase, **L2** = Long wheelbase. All engines are EU6.2 with 6-speed manual transmission unless otherwise stated.

Fuel economy and CO₂ emissions

	Axle ratio ⁰⁰⁰	CO ₂ emissions (g/km) ⁰⁰⁰	Fuel consumption in L/100 km ⁰⁰⁰		
			Low	High	Combined
L1 Nugget with Tilt Roof					
2.0 TDCi Ford EcoBlue 130 PS (96 kW)	4.43	204	7.7	6.2	7.2
2.0 TDCi Ford EcoBlue 185 PS (136 kW)	4.19/3.05	204	7.7	6.2	7.2
2.0 TDCi Ford EcoBlue 185 PS (136 kW) 6-speed automatic	3.39	230	9.2	6.6	7.8
L2 Nugget with Tilt Roof					
2.0 TDCi Ford EcoBlue 130 PS (96 kW)	4.43	260	9.6	8.7	9.9
2.0 TDCi Ford EcoBlue 185 PS (136 kW)	4.19/3.05	260	9.6	8.7	9.9
2.0 TDCi Ford EcoBlue 185 PS (136 kW) 6-speed automatic	3.39	273	11.9	8.9	10.4

Note for all EcoBlue engines:

⁰⁰⁰The fuel consumption and CO₂ emission figures shown in the table are derived from the Worldwide Harmonised Light Vehicle Test Procedure (WLTP). These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted, variations in weather, driving styles and vehicle load. The figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other vehicles tested to the same technical procedures.

You can also use Ford's online configurator to build and customise a new Ford vehicle: www.ford.co.uk/configurator. The configurator provides information about your configured vehicle's fuel consumption and CO₂ emissions (these are also WLTP test figures). The declared Fuel/Energy Consumptions, CO₂-Emissions and Electric range are determined according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EU) 2017/1151 as last amended. Light Duty Vehicles type-approved using the World Harmonised Light Vehicle Test Procedure (WLTP) have Fuel/Energy Consumptions and CO₂-Emission information for both New European Drive Cycle (NEDC) and WLTP. WLTP is a new, more realistic test procedure for measuring fuel consumption and CO₂ emissions and will fully replace the NEDC latest by end of the year 2020. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel/energy consumption, CO₂ emissions and electric range. CO₂ is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO₂ emissions which contain data for all new passenger car models is available at any point of sale free of charge or can be downloaded under http://carfueldata.dft.gov.uk.

FORD BUSINESS SERVICE

Efficiency, accuracy and convenience are at the heart of the Ford Transit24 commercial vehicle service promise. Therefore, whether it is servicing, maintenance or repair you need, be sure to come and see us.

- Available from all Transit Centres and Transit Service dealers
- While-you-wait servicing by prior appointment
- Late night servicing available at least once per week
- Priority treatment for urgent repairs
- Vehicle off the road repairs (VOR)*
- Collection and delivery**
- Testing and MOTs
- Transparent pricing
- Genuine Ford parts quality
- Ford-trained technicians

- Interim checks for optimum vehicle performance
- Service Activated Roadside Assistance†
- Ford Protect packages to suit you
- One Call to access all the Ford services you need

*Repairs will start on the same working day (as long as you bring your vehicle in before 3pm), or at least within 24 hours of its arrival. If we need to order parts, we'll begin work the day they're delivered. 'Vehicle off road' repairs should be completed within 24-hours.

**Your Transit Centre can arrange to collect your vehicle and deliver it back to you after service or repairs, so you can get on with running your business. By arrangement and limited to a specific mileage radius of the dealer. Contact your local dealer to discuss your requirements.

†Available at participating Dealers only. Roadside Assistance is activated automatically at every routine service with coverage extended valid from the date of service for 12 months, or until the next service is due, whichever comes first.

See Ford.co.uk/roadsideassistance for more information.

Commercial Vehicle Finance

When it comes to financing your vehicle, our size and expertise means we're well placed to provide you with a wide range of finance products.

Ford Credit®: Provides a range of finance plans for your vehicle whether you are a private or business user.

FordPass is a new platform that will empower you to rethink the way you move. Finds parking locations nearby, contains vehicle and finance details, dealer information and a host of useful guides.
Live Traffic access is free for the first 2 years following the purchase of a new Ford featuring SYNC 3 with navigation; thereafter there is an annual licence fee.

Illustrations, descriptions and specifications. This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and recommended prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of products from our suppliers. Fitment of accessories may have an impact on your vehicle's fuel consumption. **+** The identified accessories are carefully selected third party supplier branded accessories which do not come with a Ford warranty but are covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. The iPod word mark and logos are the property of Apple Inc. Other trademarks and trade names are those of their respective owners. **Note.** Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.

The Government fuel figures do not express or imply any guarantee of the fuel consumption of any particular vehicle. The vehicles themselves have not been tested and there are inevitably differences between individual vehicles of the same model. In addition, a vehicle may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. **Insurance groups** are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.
